In re Patent Application of)
Julien HERNANDEZ et al.) Group Art Unit: 1793
Application No.: 10/562,908	Examiner: Shuanqyi Abu Ali
Filed: July 26, 2006) Confirmation No.: 3883
For: THERMAL AND/OR ACOUSTIC INSULATION MATERIALS SHAPED FROM SILICA)))

RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

In complete response to the Restriction Requirement mailed November 14, 2008, Applicants submit herewith the following Response.

The Examiner sets forth the following Restriction Requirement:

Group I: Claims 28-40, drawn to a method of preparing an insulation material; and

Group II: Claims 41-54, drawn to an insulation material.

Applicants respectfully traverse the Restriction Requirement as set forth by the Examiner. Moreover, Applicants respectfully assert that Groups I and II should properly be examined together. Further, Applicants submit that Groups I and II are closely related and that a proper search of any of the claims should, by necessity, require a proper search of the others. Thus, Applicants submit that all of the claims can be searched simultaneously, and that a duplicative search, with possibly inconsistent results, may occur if the restriction requirement is maintained. In this regard, Applicants respectfully submit that the method of preparation of claims 28-40 (Group 1) is for producing original isolating material as defined in claims 41-54 (Group II) and that the isolating materials of Group II cannot be obtained by another method that the method as defined in the Group I.
